## U.S. WILL ASK IF RAIDS ARE TO CONTINUE

Government Said to Regard Such Action on the Part of Germany as Intolerable.

### WILSON OFF TO INDIANAPOLIS

President Appoints Advisory Commission to Be Associated With Council on National Defense in Planning Quick Mobilization of Resources.

(Robert Bender.)  
ABOARD WILSON'S SPECIAL, Columbus, Oct. 12.—President Wilson passed here early this morning en route to Indianapolis where a busy program awaits him. He makes three speeches, reviews the parade, attends a luncheon and participates in a good roads celebration before night. He meets politicians, business men and farmers during the day.

Before leaving the summer White House Wilson disposed of all immediate questions arising from the submarine raid on the coast. It is learned the government plans a careful inquiry through regular diplomatic channels to ascertain whether Germany intends to continue raids on this side of the Atlantic. It is stated on good authority that the government regards such action as intolerable. The reports that several submarines were operating around the executive party's deepest interest.

The president appointed an advisory commission to be associated with the council on national defense in planning a rapid mobilization of the country's resources.

## ECHO YOUTH SHOOTS HIMSELF IN HEART

William Nelson, Aged 21, Dies Without Giving Any Explanation—Body to Be Sent to the East.

(East Oregonian Special.)  
ECHO, Ore., Oct. 12.—Leaving no explanation of his act, William Nelson, 21, shot himself through the heart with a .32 revolver at the Wright lodging-house last night, killing himself instantly. A note was found directing L. B. Ashbaugh, his employer, to send his body to Chicago where his father lives.

The young man had been around Echo for the past two years, working for Mr. Ashbaugh part of the time and doing odd jobs. He bore a good reputation and the only explanation that can be given by his friends for his rash action is despondency.

Coroner J. T. Brown was summoned from Pendleton and is conducting an inquest this afternoon.

## WHO WERE THE COWARDS ON THE 7TH OF MARCH?

Charges of cowardice or vacillation made against President Wilson come in ill grace from republican newspapers of republican orators in view of the republican record on the McLeMORE "scuttle" resolution.

The one great "showdown" of the war came when this resolution was disposed of in congress. The resolution was an attempt to keep American citizens from traveling on armed merchantmen even though international law allows such travel. The resolution was a "white feather" proposal. It was introduced at a time when relations between the United States and Germany were strained almost to the breaking point. It was favored by men who were afraid of a war with Germany.

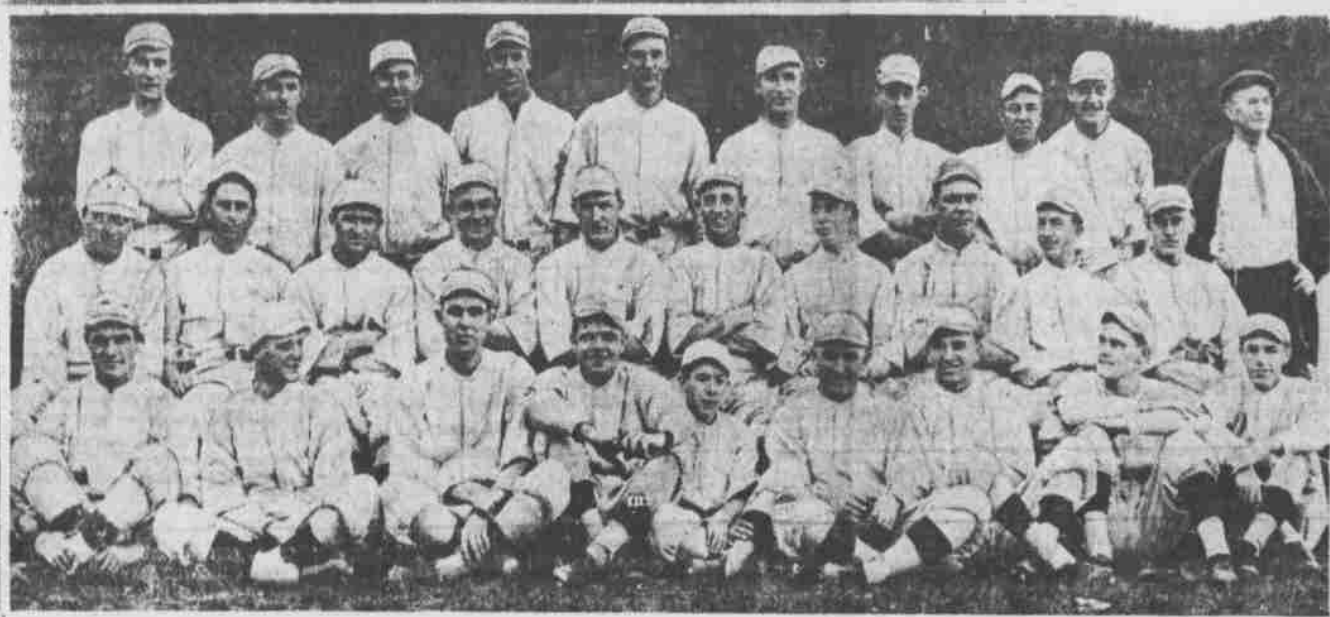

The situation was such that President Wilson called upon congress to show its colors and decide whether the influence of the American government or of a foreign government should be supreme in this nation.

In the house the administration forces moved to table the McLeMORE resolution and one of the great congressional fights of modern history was enacted. The resolution was favored by the republican organization headed by Minority Leader Mann. The vote to table carried 276 to 142. Of those voting for the "white feather" proposal 101 were republicans.

In other words the record shows that when the real test came last March the republican party, as represented in congress was the party of the "cold foot." The house republicans under their recognized leadership opposed the vigorous Americanism of Woodrow Wilson and favored a proposal that was both cowardly and weak. The nation's honor and prestige were upheld by democratic votes.

Tory newspapers now assailing Wilson on the score of cowardice should look to the congressional record for March 7, 1916, and observe that they are barking at the wrong man and the wrong political party.

## STATE FEDERATION ENDORSES MEASURE FOR NORMAL SCHOOL

### CITY BUDGET SET AT \$50,000 MARK

Tentative Draft of Expense List Carries no Item for Library; Other Expenses May Be Higher.

The tentative budget of expenses for the year 1917 was submitted to the council last evening by the finance committee. The total of the budget as submitted is close to \$50,000 but no item was included for library maintenance in view of the unsettled condition of the library. Several of the estimates are considered too low and it is probable that the final budget will be as large as that of a year ago, something over \$50,000.

The budget submitted included the following items: Fire department, \$6000; recorder, \$1500; police, \$2500; lights, \$1500; rents, \$700; interest, general, \$12,511.88; street sprinkling, \$1500; streets, \$3000; legal services, \$1500; treasurer's expenses, \$12.50; city hall, \$1000; parks, \$1000; health, \$500; elections, \$500; surveyor, \$700; street cleaning, \$5000; levee, \$1000; sewers, \$500; cemetery, \$1200.

It is believed by some of the councilmen that the fire department expenses will run to \$3000, the police expenses to \$3500 and the street expense to \$5500. The other items are considered large enough.

Of the \$24,744.07 tax of 1915, \$49,622.85 has been collected, leaving a balance delinquent of \$5,129.22.

**Monroe Street Assessments.**  
The so-called Monroe street improvement was reported completed last evening by City Engineer Kimbrell and he submitted the list of assessments against the various pieces of property in the district.

Marion County Teachers Say Eastern Oregon Should Have Normal; 400 at Institution Pass Resolution of Support.

By unanimous vote taken yesterday the delegates to the state federation of women's clubs in session at Seaside endorsed the measure for a state normal school at Pendleton. A message to this effect was received here last evening from Mrs. Roy T. Bishop and the news is confirmed by reports in the Portland papers. The Monmouth delegation aided in the passage of the resolution.

**Marion County Help.**

Further good news has been received to the effect that 400 teachers of Marion county, assembled in institute, have endorsed the eastern Oregon bill. As reported by County Superintendent W. M. Smith of Monmouth county the resolution passed was as follows:

Be it resolved, that this institute go on record as favoring the establishment of the Eastern Oregon Normal School at Pendleton as per proposed legislation.

In a personal letter to the local committee Superintendent Smith has made known his own sentiments on the bill as follows:

SALEM, Ore., Oct. 10.—I heartily favor the establishment of a normal school at Pendleton. The great need of the public schools of Oregon is for trained teachers. Very few of the students of the Normal School at Monmouth come from eastern Oregon, showing that the Monmouth school does not serve to any great extent that part of the state which is east of the Cascades. I shall, therefore, lend my influence and support to the passage of a bill to establish a normal school at Pendleton.

W. M. SMITH,  
Superintendent of Marion County, Oregon.

BERLIN, Oct. 12.—It is announced the Germans repulsed strong allied attacks between Morval and Bouchavesnes, north of the Somme. The assaults lasted all night.

LONDON, Oct. 12.—It is announced a British cavalry brigade cleared the Bulgarians from the country surrounding Seres. They found the Bulgarians strongly holding Seres itself.

Today's receipts were slightly three thousand dollars; the total series receipts being three hundred eighty-five thousand.

Pepper and Shore both opened good. They used curves effectively. Caddy easily scored on Cady's passed ball in the first inning and romped home standing up.

Lewis was lucky to score in the second. His triple bounded over Shore but he scored when Wheat threw home wide.

Brooklyn made the weakest effort in the fourth and appeared disconcerted.

**Enthusiasm Small.**

The crowd packed every corner of the immense stands. Many stood in the runways. Despite the size, the enthusiasm was small.

Brooklyn made the first hit in the fifth. Myers' bouncer eluded Shore. Brooklyn had not hit a ball outside of the infield up to that time.

Boston slammed Pfeffer hard in the fifth, but scored on long drives after two were out. Brooklyn was unable to touch Shore in the sixth and retired the side on weak hitting. Lewis hit safely in Boston's half but fast infelding prevented it coming past second despite a wild pitch. Mowrey secured the first clean drive off Shore in the seventh, but was unable to start a rally despite Scott's two errors.

**Game Below Standard.**

The game was below standard. Wild errors were made. Thousands swarmed the field immediately afterward and marched behind a band loudly tooting "Tessie." They massed before the players' bench and applauded the Bostonians every inch inside the field was packed.

## PENDLETON PUBLIC LIBRARY BOARD TELLS COUNCIL ITS PLANS FOR CITY LIBRARY

Predicting that the new plan under which the county is operating the library system will fail and that the city will probably have an opportunity to operate the city library in the new building, the Pendleton public library board last evening addressed a lengthy communication to the city council discussing the library situation.

The board recommended to the council that the city should maintain its own library at its own expense under its own authority in the new building if that can be had on terms mutually fair to the county and city otherwise to reopen the city hall while awaiting the final verdict of public opinion in city and county.

If the city reopens its own library in the city hall, the report advised that no tax levy for its maintenance will be necessary for the coming year and perhaps none for the following year. There is now in the city library fund \$2189.16 besides \$98.19 in the hall.

## LABOR LEADER SAYS HUGHES ELECTION WOULD BE A BLOW TO FREEDOM OF WORKINGMAN

BY JOHN P. WHITE.  
(President United Mine Workers.)

As president of the largest labor organization in the world, the United Mine Workers with 400,000 members—John P. White has given the Newspaper Enterprise Association a statement pointing out that the rights of the working man are at stake in this campaign and will be endangered by the election of Hughes.

Mr. White tells why wage earners should look with grave fears on the success of the republican candidate. It is a significant and remarkable

statement that should be read by every man interested in the welfare of working men and women.

Said Mr. White:

"For every working man and woman, the paramount issue in this campaign is the right of wage earners to organize and act together for their own protection and advancement."

"Every big corporation and labor exploiter in the country intent on defeating organization and keeping their employees submissive and de-
